

TRADE UP TO RUCKUS WIRELESS PROMOTION

Trade up your old **Cisco** Access Points and receive the benefits of **Ruckus Wireless** at a heavily discounted price

OUT WITH THE OLD

IN WITH THE NEW!

Croatian Academic and Research Network (CARNet) conducted independent Wi-Fi performance testing with top 802.11n and 802.11ac APs. By testing traffic patterns with multiple clients, we can accurately measure an AP's ability to handle real-world mixed traffic types and maintain high-quality performance as load increases. See results below.
