MULTI-GIGABIT BUNDLE PROMOTION

Future-proof networks with high-performance RUCKUS multi-gigabit Wi-Fi access points (AP) and ICX switches. Special pricing is available when you pair a RUCKUS 720 or R730 AP with the ICX 7150-48ZP or ICX 7650-48ZP switch. These bundles solutions include 802.11 ac Wave 2 optimised 2.5 Gbe access point and switches, or 2.5/5/10 GbE switches to support Wi-Fi 6 - 802.11 ax and future generations Wi-Fi standard.

WHY UPGRADE TO MULTI-GIGABIT BUNDLE SOLUTIONS

- Multi-gigabit solutions allow customers to double back-haul capacity without forcing expensive switch upgrades
- Both ICX 7150-48ZP and ICX 7650-48ZP offer up to 90 watts of PoE power per port and 1500 total PoE budget
- The ICX 7650 switch provides uplinks to 100 Gbps to future-proof any network
