

Healthcare & Hospitals

1. Wi-Fi Access Points, Switching & Management

Cambium Networks cnPilot

cnPilot 802.11ac Wave 2 Wi-Fi products with advanced management capabilities deliver high capacity and fast installation and price performance.

2. Information Communications Technology

Ascom Mobile Work-flow

Ascom specialises in smart communication and work-flow systems that enable organisations to automate and control communications between staff, buildings-infrastructure and business operations.

3. WatchGuard Secure Wi-Fi Networks

Wireless Intrusion Prevention Systems (WIPS) & Firewall

WIPS security sensors can be added to your current Wi-Fi deployment with ease. Couple that with firewalls to add a layer of network security that ensures you'll be protected from external malicious attacks.

4. Encapto Guest Captive Portal

Encapto Wi-Fi

Encapto's ground breaking software enables you to monetise your Wi-Fi hotspot via payment gateways and serve targeted advertisements based on data captured from your users in real time.

5. UPS Safety Power Backup

CertaUPS

An uninterrupted power supply will provide you with short term power to keep you online. Reduce the risk of costly downtime and lost data.
