

Small & Medium Enterprise (SME)

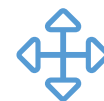

1. Wi-Fi Access Points

Cambium Networks cnPilot

cnPilot 802.11ac Wave 2 Wi-Fi products with advanced management capabilities deliver high capacity and fast installation and price performance.

2. Network Switching & Management

Cambium cnMatrix & cnMaestro

Use cnMatrix™ with Cambium's cnMaestro™ cloud management platform for a zero-touch experience which maintains both ease of management, robust security and reduces costs.

3. WatchGuard Secure Wi-Fi Networks

Wireless Intrusion Prevention Systems (WIPS) & Firewall

WIPS security sensors can be added to your current Wi-Fi deployment with ease. Couple that with firewalls to add a layer of network security that ensures you'll be protected from external malicious attacks.

5. UPS Safety Power Backup

CertaUPS

An uninterrupted power supply will provide you with short term power to keep you online. Reduce the risk of costly downtime and lost data.
