ZoneDirector™ to SmartZone™ Migration Promotion

Overview

Today, many RUCKUS customers manage their wireless network using a ZoneDirector-based solution. However, this controller platform will soon no longer be supported, and we want to help these customers move to the latest management platforms.

Promotion Details

- Promo Code: RKS-0396
- Eligible Geo: Worldwide
- Eligible solution providers: All
- Eligible end customer: Customers who own ZoneDirector controllers and show as the registered end user according to RUCKUS records
- Duration: April 11, 2023 to March 31, 2024

Requirements

- Deal registration or FS DDO is required
- End customer must currently have a ZoneDirector platform in their network solution
- ZoneDirector serial number must be provided
- Number of discounted AP licenses purchased using this promotion must not exceed the number of ZoneDirector AP licenses owned.

Migrating with Professional Services

Migrations for the ZD-1200 controller with up to 150 APs to a new or existing RUCKUS One network are available by ordering part number 905-PRO1-ZDMIGR. Other ZoneDirector controller migrations (ZD3000/5000) with a larger number of APs can also be migrated with a customised scope of work. You can request a scoping discussion with our Professional Services team today.

If your IT staff are familiar with RUCKUS One, then duplicating and adapting your network configuration into your new controller will not be too difficult when utilising the RUCKUS self-help guides. Yet if your busy staff do not have the time or you require additional assurance working with RUCKUS One, then consider using Purdicom Professional Services.
