

# SIKLU MULTHAUL TERRAGRAPH: REDEFINING ACCESS

In a world where high-speed connectivity is non-negotiable, Siklu presents MultiHaul TG, the solution to your access woes.

## SIKLU'S SOLUTION

MultiHaul TG offers reliable, cost-effective gigabit-speed fixed wireless access. With streaming, telework, tele-education, and telemedicine on the rise, 50 Mb/s is no longer sufficient.

## PRODUCT OFFERING

**T280:** Siklu's latest 60GHz point-to-multipoint product line, certified with Terragraph.

**T261:** The 3rd gen 60GHz product with Terragraph certification, featuring Nodes in a redundant mesh topology.

**N366:** A 3rd-gen 60GHz point-to-multipoint system with Terragraph certification, offering Nodes and Terminal Units in a mesh setup.

## PRODUCT HIGHLIGHTS

- Choose between 360-degree coverage from the N366 mesh node or 90-degree coverage from the N265.
- Autonomous operations mode ensures seamless connectivity without the need for controllers.
- Advanced L2 SDN mesh routing guarantees self-organization and high availability.
- Enjoy plug-and-play installation with auto-alignment for hassle-free setup.
- Long-range links with dish antennas in PtMP or PtP configuration, Terragraph certified.
- Select ports and POE-out up to 63W for versatile connectivity.

## TERRAGRAPH CERTIFICATION

Ensures quality, reliability, and compatibility with industry standards
