

IMPORTANT ANNOUNCEMENT

Exciting Upgrades Ahead

Transition to the next generation of RUCKUS Networks ICX Switches

As the largest RUCKUS distributor in EMEA, we're committed to providing the best in networking technology. As part of ongoing innovation, RUCKUS are introducing the next generation of ICX switches!

To make way for these advancements, we are announcing the transition of the ICX7150-24, ICX7150-48, ICX7150-24P, ICX7150-48P, and ICX7150-48PF switch products.

To ensure a smooth transition, our team is here to support you with expert guidance on migrating to the ICX8200 and the exciting new ICX8100 series. The ICX8200 will be the recommended replacement for certain ICX7150 models, and starting on 1st July 2025, the ICX8100 models with 10G uplinks will be available to meet your customers' evolving needs.

We're here to help! [Contact us today](#) to find the best solution for your customers' network. We look forward to upgrading your experience with the latest technology!

IMPORTANT ANNOUNCEMENT

Frequently Asked Questions (FAQ)

Why is RUCKUS transitioning away from the ICX7150 series?

To continue delivering cutting-edge networking solutions, RUCKUS are shifting to next-generation ICX switches that offer enhanced performance, scalability, and future-ready features.

When is the last ship date for the ICX7150 series?

The last ship date for products included in this End of Sale announcement is 31st July 2025.

Are all ICX7150 models included in this End of Sale announcement?

No, the RUCKUS ICX7150-C12P, ICX7150-C10ZP, and ICX7150-48ZP products are not included in this End of Sale announcement.

What are the recommended replacement models?

The ICX8200 will be the suggested replacement for certain ICX7150 models until the 1st July 2025, when the ICX8100 10G uplink models become available.

Will my existing ICX7150 switches still be supported?

Yes! RUCKUS will continue to provide support and services for existing ICX7150 deployments in accordance with their product lifecycle policies.

Who can I contact for assistance with the transition?

Your RUCKUS account manager here at Purdicom is available to help you choose the best replacement models and ensure a smooth migration. Call us today or click on the button above to get in touch.
