

RUCKUS Networks is now part of Belden

Establishes leading end-to-end IT/OT networking solution for enterprise and industrial customers

RUCKUS Networks is a leading provider of enterprise networking solutions delivering purpose-built connectivity for high-density, mission-critical environments. This combination is designed to bring RUCKUS Networks' proven wireless and switching into Belden's core vertical markets, where demand for converged IT and OT connectivity is accelerating.

Provide industry-leading capabilities across core enterprise growth verticals, including hospitality, education and healthcare.

- Wi-Fi solutions
- Enterprise switching
- AI-driven network assurance platform

Complement Belden's existing capabilities, expands Belden's market footprint and positions the Company to deliver broader, higher-value end-to-end networking solutions across:

- Enterprise campuses
- High-density public venues
- Industrial facilities
- Critical infrastructure

Leverage Belden's expertise, capabilities and scale to amplify what makes RUCKUS Networks successful:

- Culture of innovation
- World-class customer support
- Industry-leading channel program

This acquisition is ultimately about serving customers better and bringing together enhanced capabilities, deeper expertise and more comprehensive solutions to support their success now and into the future

Channel Partner and Distributor FAQs

What was announced?	• Belden has completed its acquisition of RUCKUS Networks, a global provider of intelligent network solutions. • The acquisition strengthens RUCKUS' ability to create long-term innovation at scale for customers across its portfolio.
Who is Belden?	• Belden is a global leader in data networking infrastructure with deep expertise across enterprise IT and industrial/operational technology environments. • Headquartered in St. Louis, Belden brings more than 120 years of experience in quality, reliability and connectivity infrastructure with manufacturing capabilities across North America, Europe, Asia, and Africa.
Why did Belden acquire RUCKUS Networks?	• The acquisition serves as a significant growth catalyst for Belden and adds industry-leading Wi-Fi®, enterprise switching capabilities and an AI-driven network assurance platform that directly strengthen Belden's solutions offering. • RUCKUS Networks' core offerings are highly complementary to Belden's existing portfolio and allow us to help customers solve bigger, more complex problems as they modernize their operations.
How does this strengthen your partnership with RUCKUS Networks?	• The acquisition brings together complementary networking capabilities and positions RUCKUS Networks for long-term innovation at scale, allowing us to provide expanded solution capabilities for customers. • As a part of Belden, RUCKUS Networks remains focused on customer success and we believe the acquisition will allow us to better serve you with enhanced capabilities, deeper expertise and more comprehensive solutions now and into the future.
What can you expect during the transition?	• Belden intends to preserve and enhance what makes RUCKUS Networks successful, including the brand, pace of innovation, support model and channel-first approach, while leveraging Belden's scale and industrial footprint where it creates value. • As the integration process progresses, we will continue to communicate openly and intend to provide updates well in advance of any changes.
Will there be any immediate changes to products or services?	• No, we do not expect any immediate changes in how we support our customers. • We have prioritized making this transition as seamless as possible, and we remain committed to delivering the performance, reliability, support and innovation our customers expect.
Will my contract agreements or partner status change?	• No, there are no immediate changes to existing contracts or ways of working as a result of the partnership. • Partner deal registrations remain protected. Current program tiers, RUCKUS Rewards, rebates, MDF commitments and distribution channels remain unchanged at this time.
Will my point of contact change?	• No, continue working with your existing RUCKUS point of contact. RUCKUS Networks employees will transition to Belden email addresses (@belden.com) effective July 1, but existing RUCKUS email addresses will continue to work during the transition.
Will pricing or support change as a result of the acquisition?	• We do not expect any immediate changes to pricing or customer support as a result of this partnership. • We remain focused on delivering value to customers while maintaining the high level of service and support they depend on.
Who can I contact if I have additional questions?	• Please contact your existing RUCKUS Networks point of contact with any questions regarding the partnership or how it may affect your business.
